To Mrs. Ghaida Salameh in Human Resources

Organization International Cooperation Jeddah:

I am writing this letter of recommendation for one of our finest students, Cheikh Mohamadou Bachir Mbodj. This student has a powerful vision and should be given every opportunity to work for a better world.

Before writing this recommendation, I re-read the final thesis of Cheikh Mohamadou Bachir Mbodj that he submitted at AIU. His knowledge is based on experience and focused study. He is looking at deep problems and finding innovative and creative ways to solve them. He is an incredibly intelligent, capable and extraordinary student.

I worked with Cheikh Mohamadou Bachir Mbodj. I observed his heart in action with his mind. His concern for the well-being of the people of his country is genuine. He probes the depths of society to find clues and answers to the problems. He has the insight to find those answers.

I highly recommend Cheikh Mohamadou Bachir Mbodj for whatever endeavor he seeks.

I feel confident in saying that he is capable of handling any situation and challenge with insight, graciousness, humility and wisdom.

Sincerely,

Edward Lambert

Interview with Cheikh M. Bachir Mbodj, AIU graduate

Cheikh, tell us about this educational experience. How has the learning process based in Andragogy impacted your life professionally and personally?

My AIU educational experience is very worthwhile and insightful for me. When I

Cheikh H. Bachir Mbodj is a student from Thies, Senegal. He has already completed a Doctorate in Business Administration. Currently, he is Head Chief Division Accountant and part-time teacher at the Institut Universitaire de Technologie (IUT), for the Supply Chain department.

began, I have a little trouble to structure my thesis and the essays, but then I read the Guide and received guidance from my Advisors Dr. Franklin Valcin, Dr. Edward Lambert I am grateful to them, and to my Tutors Renato, Nadia/Mrs. Ofelia/Linda. After my first essay I started enjoying research. I have a passion to be excellent to other as well as very good. I succeed with Andragogy, the concept of Alexander Kapp. I try to discuss different topics with many teachers and students, sometimes people on media news; all of them like it. Professionally, I help other rationally and efficiently when we have team work or seminar.

What made you decide to enroll at AIU?

I listened carefully to my Admission Counselor and my Advisor. Also, when I saw the thesis of the students with honor published, I said: "I would like to do the same", and I did!

Was it easy for you to do your program by yourself?

I found very easy to do my program myself.

How is your AIU Degree helping in your professional career?

When I finished my Degree, I sent my resume and certificate of AIU Doctorate to the Institut Universitaire de Technologie (IUT), because I wanted to become a part-time professor at the Supply Chain department. The same day, the responsible of Gestion des Logistiques et des Transports (GLT) called me for an interview. Since then, I teach part-time and hope I will soon be doing it full time.

I organized a successful seminar on my essay "How We Can Alleviate The Global Poverty" at a EBC Hotel, on April 11th 2015, with my students, the Director of IUT, and other people.

I'm pretty sure other seminars and opportunities are coming my way.

Before this, I was an Accountant, and now I would like to become a full-time professor, I think this way I will get many other opportunities.

Have you been able to help your community?

Yes. Sama Enterprise and EBC Hotel, at Thies.

Tell us about your actual job and how has the knowledge that you have gained at Atlantic International University helped you.

Present full-time job: Head Chief Division Accountant at IUT. I've worked here before having gained all that knowledge at AIU.

Present part-time job: I am a teacher at the University of Thies, working at the IUT Supply Chain department.

What achievements have you obtained after completing this program?

I have got the opportunity to become a full-time professor – very soon –, and international consulting on micro-finance and economy development, with many conferences around the world about the topics of my research. Also, my DBA thesis has been published on www.amazon.com, in kindle format.

How we can alleviate the Global Poverty

"At the heart of the troubles of developing countries, acute drought, bad nutrition and anemia are real, as many other factors in those countries.

These factors are pointing out and efficient methods are needed for a value chain through the costs and sources. The durability of the strategy of the cost cutting gives a real differentiation of these factors or elements for the sensitive affirmation of continuous framework to clear out these influences driving new values and values for the evolution of this static matter.

It's a dilemma focused by appreciation to customer to situate many effects driven on these countries and sources to fight effectively food insecurity and to fight poverty in Senegal."
